The Cannabis Landscape in the U.S.

Where We See Opportunities

LACK OF TRADITIONAL FINANCING

Banks generally don't lend to firms in this industry, allowing higher interest rates, attractive collateral, and lender-friendly covenants.

HIGH BARRIERS TO ENTRY

Each state has unique investment characteristics, supply and demand dynamics, and legal frameworks, requiring sophisticated understanding of the industry and strong underwriting expertise.

LOW CORRELATIONS TO TRADITIONAL MARKETS

Medical cannabis behaves like pharmaceuticals, recreational cannabis behaves like tobacco and alcohol, both exhibiting low correlation with traditional markets.

FOCUS ON BEST-IN-CLASS OPERATORS WITH PROVEN EXPERTISE

Operators in limited-license states with pricing power, operators in hyper-competitive states with protective moats, and market-leading brands.

WE FOLLOW POTENTIAL ALPHA INTO INDUSTRIES WITH LOW COMPETITION

Chicago Atlantic makes no guarantee of future outcomes.

Potential Benefits of Regulatory Reform

INCREASED MARKET OPPORTUNITIES	Renewed federal momentum around cannabis reform following President Trump's December executive order and the rescheduling of medical cannabis in April '26 has revived the possibility of additional reforms and broader regulatory clarity. Further progress on recreational rescheduling could materially improve operator cash flow, expand access to capital, and reopen strategic financing opportunities across the industry.[19]
ENHANCED SALES THROUGH CREDIT CARD PROCESSING	Allowing dispensaries to process credit card transactions may lead to a significant boost in sales.
IMPROVED EQUITY VALUATIONS	As investor confidence grows, equity valuations are likely to tick higher, providing additional incentives for investment and increased credit protection.
INCREASED ATTRACTIVENESS FOR ACQUISITION	Further legalization could create more favorable conditions and increase portfolio attractiveness for potential acquirers (such as private equity or private credit funds), while make-whole provisions and pre-payment penalties provide additional appeal.
FAVORABLE COMPETITIVE LANDSCAPE	Significant barriers to entry, such as stringent financial requirements and industry-specific knowledge, are likely to keep the market relatively stable and prevent an inundation of competitors over the next several years.

End Notes

1) Includes all closed loans across the Chicago Atlantic platform, as of September 30, 2026.

2) Includes potential funding opportunities for new originations and refinancing of existing assets as of 9/30/2026.

3) Weighted Average Portfolio Yield on Debt Investments ("Portfolio Yield") is the weighted average of the annualized yield for each debt investment in the portfolio weighted by the amortized cost of each debt investment as of 9/30/2026. The yield for each debt investment is calculated by dividing (a) the sum of (i) the stated annual cash interest rate of the debt investment as of 9/30/2026, (ii) the stated annual payment-in-kind interest rate, if any, of the debt investment as of 9/30/2026, (iii) any additional recurring fees, (iv) the difference between the par value and the amortized cost of the debt investment, expressed as a percentage of the par value of the debt investment, and annualized based on the remaining term of the debt investment as of 9/30/2026, and (v) the exit fee of the debt investment, if any, expressed as a percentage of the par value of the debt investment and annualized based on the remaining term of the debt investment as of 9/30/2026, by (b) the amortized cost of the debt investment, expressed as a percentage of the par value of the debt investment. The Portfolio Yield calculation does not reflect any prepayment penalties or early payoffs with respect to the debt investments. The Portfolio Yield is gross of expenses and excludes cash and equity holdings. The Portfolio Yield would be lower if the calculation reflected expenses and cash holdings. The Portfolio Yield does not represent actual investment returns to the Company's stockholders and the Company may not actually realize the foregoing yield of any specific debt investment, including if the remaining term of the debt investment is less than a year.

4) Capital under management represents total committed investor capital, total available leverage including undrawn capital, and capital invested by co-investors and managed by the firm, as of June 30, 2026.

5) The common shares issued and outstanding as of September 30, 2026 and June 30, 2026 were 22,820,590 and 22,820,590, respectively.

6) Payment-in-Kind ("PIK"), as a percentage of total investment income. Post-origination PIK represents the percentage of total annual interest expected to be received in kind instead of in cash. Typically due to amendments, covenant breaches, or restructurings.

7) Amounts were derived from the portfolio company financial statements used in connection with determining the investment valuations as of September 30, 2026, have not been independently verified by the Company, and may reflect a normalized or adjusted amount. Accordingly, the Company makes no representation or warranty in respect of this information. Excluded from the portfolio metrics include: (i) loans on non-accrual status, (ii) portfolio companies that report negative or de minimis EBITDA, and (iii) investment funds and special purpose vehicles for which standard operating metrics are not applicable.

8) Calculated as a percentage of the total fair value of the Company's investment portfolio (excluding cash and cash equivalents). Industries follow NAICS 2-digit Sector categorizations.

20) Represents the investment portfolio of the Combined Company, comprised of i) LIEN's investments at fair value as of June 30, 2026, as reported, and ii) REFI's investments as of June 30, 2026, adjusted to a fair value basis based on most recent third-party valuations.

21) Prior to the merger, REFI (currently a REIT) will elect BDC status by filing Form N-54A with the SEC and may pay a special distribution to eliminate all accumulated earnings and profits. The merger is intended to qualify as a tax-free reorganization under Section 368(a) of the Internal Revenue Code, as amended, such that REFI stockholders would generally not recognize gain or loss on their shares. A tax opinion confirming this treatment is a condition to closing. Investors should consult their own tax advisors.

22) Capitalized terms herein are as defined in the Merger Agreement dated June 17, 2026, as filed with the SEC.

23) "TTM Realized Gross Yield" basis of calculation: The trailing-twelve-month ("TTM") effective yield presented for each issuer is computed as TTM income divided by the trailing five-quarter average loan principal outstanding; TTM income comprises the four most recent fiscal quarters of total gross investment income for Chicago Atlantic BDC (NASDAQ: LIEN) and of interest income for Chicago Atlantic Real Estate Finance (NASDAQ: REFI), in each case as reported in the respective issuer's Forms 10-Q and 10-K. The five-quarter average principal represents the simple arithmetic mean of total loan principal outstanding at the five consecutive quarter-end dates spanning the measurement period (i.e., the period-end balance together with the four immediately preceding quarter-ends). The foregoing measures are non-GAAP, are derived from publicly filed financial statements, and have not been independently audited, reviewed, or otherwise verified by us; accordingly, this information is presented solely for comparative analytical purposes and should be read in conjunction with each issuer's complete audited financial statements and related notes. The TTM Realized Gross Yield figures presented for REFI and LIEN on the Proposed Merger Announcement page are as of June 30, 2026.

24) The Preliminary Joint Proxy/Prospectus was initially filed by LIEN on July 31, 2026, amended via Pre-Effective Amendment No. 1 on September 23, 2026.
